

**After Action Report  
For  
Wildwood, Toledo May 21st-22nd**

*Good day all,*

*I would like to introduce myself, I'm Private Chaz of the 30th C.V.I.. I portray myself as an Army Private who also plays the fife on the side. My side of the story unfolds like this...*

*I arrived early Saturday morning much to my surprise to witness a Johnny Reb being escorted by Colonel Ruley of the AoCh. I asked his adjunct if they needed any assistance handling this Rebel and then I was assured all was under control.*

*"Fall in !!!", was the next thing I heard by the Sergeant. Our Battalion formed up and moved out against the Rebels. The next thing I remember was taking a few shots at the Johnny's and out went the lights.*

*I was awoken after the shell that landed next to me knocked me unconscious and was able to form up with the skirmishers. We moved up against the Rebel Pickets and after pushing them back against their guns, we assaulted their cannons.*

*I became wounded in that battle and was taking back behind our lines. I don't recall the out come of that battle but I was assured there was another fight to be had soon.*

*Sunday morning I awoke to the sound of the Rebel fifers playing so Beautifully. Not bad for Johnnies to bad we have to fight each other in this war.*

*My Company formed up for picket duty and found ourselves foolishly relaxed as I covered the boys during a dice game. I almost was the lone Picket when the Rebels got their shots off and I mine. I became wounded and was able to get one shot off before.....*

*My Battalion then formed up and pushed the nasty scourge from our camp and eventually took the Rebel canons for good.*

*The weather, rations, the Metro Park Staff, Jim Ruley, was perfect until the last battle Sunday was rained out. I highly recommend this event again.*

*Sincerely Yours,  
Private Chaz*
